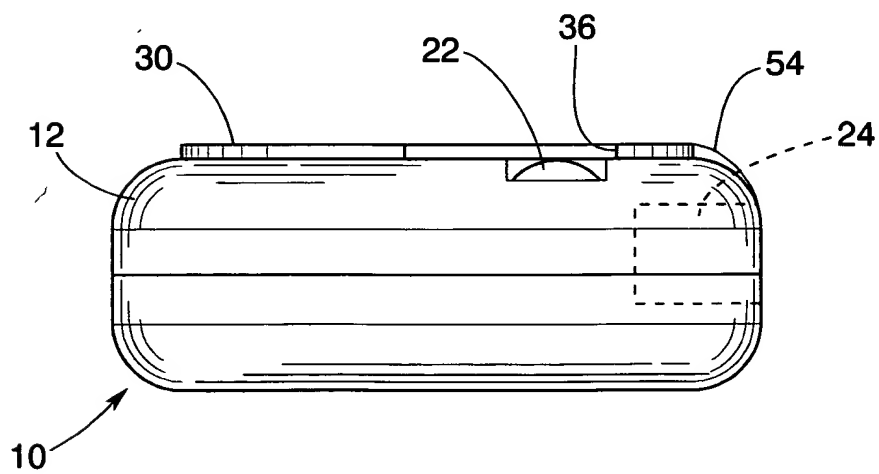

FIG. 1 is a perspective view of a handheld electronic device 10. The device has a rectangular body with rounded corners. A display screen 34 is located on the upper right portion of the front face. Below the screen is a keypad 50, which includes a grid of circular keys 52. To the right of the keypad is a control element 22, possibly a trackball or a small screen. A hinge 36 is visible on the right side of the device, connecting it to a base or another part. The device is shown in an open position, with the keypad and screen facing the user.
